SONOMA INDEX - TRIBUNE.

SATURDAY, AUGUST 22, 1885.
A SUPERVISOR UNDER A CLOUD.

S. B. Houser, Supervisor from the northern portion of Sonoma county, has been indicted by the Grand Jury on two charges—one for drawing a warrant in favor of J. W. Bagley for \$241.50 and another in favor of G. W. Morgan for \$99.12, which sums, it is alleged, he has appropriated to his own use. In their report the Grand Jury also recommended that the accused be removed from his office. He was arrested shortly after the above body adjourned, taken before a Justice of the Peace at Santa Rosa and his bail fixed at \$3,000, which he furnished.

Mr. Houser is an entire stranger to us, but we learn that he is a young man of pleasing address, good business qualifications and enjoyed the confidence of the majority of the people of his Supervisorial district, and it is to be regretted if he has betrayed the trust reposed in him by his constituents. On account of his family and previous good standing we hope he will be able to disprove the charges and retain his seat in the Board. But should he not be able to do this and is found guilty by a jury of his peers there should be no half measures in his case. A man that betrays the trust reposed in him by his party and personal friends is doubly guilty and no sympathy whatever should be extended to him.

In this connection, however, we will venture to remark that the Grand Jury was a little too hasty in recommending the indicted official's removal from office. They had found two indictments against the accused, and as a man is supposed by the law to be innocent until he is convicted by jury trial their action in recommending his removal looks too much like forestalling a verdict of guilty. Should the accused be found not guilty it would be unjust to break him of his office and we doubt if it could be done. On the other hand, if convicted, that of itself removes him and renders such recommendation by the Grand Jury unnecessary. In view of these facts we say that body exceeded its powers in the premises and should simply have contented itself with finding the indictments.

THIS PAPER.

For the benefit of a party who wrote a communication to a contemporary in Santa Rosa, last week, and among other things asserted that we were parading our private grievances before the public in the Postoffice business, we will state that this paper does not seek to thrust the individual desires of its editor upon the public. The principal aim of the INDEX-TRIBUNE is the dissemination of local news and to seek out the wants of the people of the Sonoma Valley and make them known. We have no axe to grind of our own nor none to sharpen for any individual, clique or clan. The INDEX-TRIBUNE's mission is to labor first, last and all the time for the welfare of the entire people.

A CIRCULAR has been issued by the Executive Committee of the California State Teachers' Association giving information regarding an educational exhibit to be made at the annual meeting of the Association at San Jose in December next. Medals will be given for the best work in industrial drawing, map-drawing, written exercises in language and composition and other branches of the regular course of study. The exhibits will be divided into nine groups and each group of counties will occupy a separate room.

JOHN L. SULLIVAN and Paddy Ryan are again to meet in the prize ring. The match will be fought to a finish with small gloves. The time and place has not yet been announced but both men are in active training.

The jury in the case of Prindle, on trial for killing Dr. Buck in Oakland, some time ago, were discharged last Monday. They could not agree on a verdict—nine being for acquittal and three for conviction.

THAT CORRESPONDENT.

In the "Santa Rosa Republican" of last week appeared a communication over the signature of "Justice." The writer takes exceptions to an article which appeared in these columns two weeks ago, wherein we stated that the people of this community were complaining bitterly of the lack of proper Postoffice accommodations. The communication in question was dated from Sonoma by the writer for the double purpose of covering up his tracks and making it appear that he was a resident of this town. If we are not greatly mistaken, "Justice" now resides in Santa Rosa, and it was there that he wrote his communication. He is not in the least identified with the interests of this community and has no right to meddle in an underhand way with affairs that concern him not. The people of Sonoma are well able to take care of themselves, and it is in bad taste for a non-resident to presume to speak for them. Now, the INDEX-TRIBUNE respects every man's individual opinions, and its columns are always open to a free discussion of questions affecting the public interests. If there is any one in this community who wishes to back up "Justice" in his assertion that the people of Sonoma are well satisfied with present Postoffice accommodations and do not desire lock-boxes and proper facilities to get to them, we would be pleased to hear from such and our columns thrown wide open to receive their communications.

RIPE OLD AGE.

In order to show that the climate of the Sonoma Valley is conducive to health and longevity we give the names and ages of seventeen of her citizens who have attained a ripe old age. These old gentlemen have resided in our beautiful and healthy valley all the way from twenty to fifty years, and all have passed three score years and ten. The majority of them are still hale and hearty, bright in intellect, active in business and look as young as they did twenty years ago. We might mention as many more whose ages vary between 47 and 69, but we think the following will prove the claim set up by the INDEX-TRIBUNE that the matchless climate of the Sonoma Valley has a tendency to prolong life that is not enjoyed by any other section in the world. We might mention that the voting population of the valley is 441:

THE canvass of the recent election in Utah was completed yesterday. The Mormons elected all the members of the Legislature but one, and the county officers except in one county. The Liberals elected one member of the Lower House in Summit county and county officers in the same county. A protest was filed by the Mormons against the issue of certificates of election to the Liberals elected, but was overruled by the Canvassing Board.

COUNT Von Selms Sonnenwale, German Minister to Spain, has protested against the despatch of Spanish cruisers and troops from Manila to Yapa, the largest of the Caroline Islands. He was received with marked coldness in court and social circles at Legration. The Government organs declare that Spanish public opinion may compel a severing of relations with Germany and an appeal to the Powers.

Not to be behindhand with the rest of the State, the following Sonoma Valley vintners will send a fine large exhibit of wines to the St. Louis Exposition: J. Chauvet, Wm. McPherson Hill, M. K. Cady, Mrs. K. F. Warfield, J. H. Drummond and Col. Hooper. I. DeTurk and Mrs. Wm. Hood of Santa Rosa will also forward exhibits.

CHOLERA continues to claim its victims by the hundreds in Spain and is alarmingly on the increase in France.

OUR POSTOFFICE.

ED. INDEX-TRIBUNE—Sir: Will you allow a subscriber, a business man of this town and a staunch Republican, withal, sufficient space in your paper to re-echo the sentiments expressed in your issue of the 8th inst. in regard to the Postoffice in this place. You certainly expressed the views of ninety-nine one-hundredths of this community in that article. Such Postoffice management in a town that distributes mail matter to about one thousand educated, intelligent, well-to-do people, such as constitute the inhabitants of this valley (in this progressive age), is a disgrace and reproach to our intelligence as a people and would not be allowed by the National authorities a day if they knew it. I consider the U. S. Mail facilities, as generally managed, one of the grandest boons the American people enjoy, and it has been brought to the highest stage of perfection by the wonderful skill of its managers, and by the fostering care of our generous Government. How is it in Sonoma city? The room allotted the public is about 6x10 in size. After the arrival of the daily mail, the office is locked and the people are forced upon the sidewalk and into the street. Here are gathered in Summer's heat and Winter's storms, old and young, male and female, rich and poor; a heterogeneous mass of humanity, each struggling to be first in the line, and in the scramble old people and delicate ladies are often, to say the least, roughly hustled together. This state of things continues till the mail is assorted, say forty to sixty minutes, the door is then opened and then comes the grand tussle of all for the delivery window, and in this contest brute strength generally wins and often the weaker person who has been waiting in line perhaps for an hour, he or she as the case may be, is crowded out by a new-comer with more muscle and they must go back to the end of the line again, which perhaps by this time is out in the middle of the street.

Again those near the window are importuned by parties that have not been in the line at all to "get my mail," and when the party so importuned finally reaches the window, he has perhaps half a dozen names to call for, thus consuming much valuable time to the great injustice of those in the rear. No person in a long line should be allowed to receive but one person's mail. It used to be a rule of the department that the Post Master was not allowed to deliver mail matter to any one but the owner without a written order, whether this law has been abrogated or not deponent saith not.

Now, Mr. Editor, there are many vexatious annoyances in this office—such as failures to deliver mail when received. Lots of little errors occur. For instance, the writer of this article has been to the office three times in one evening and received some mail each time. The mail, of course, should all be delivered to the owner the first time called for. But no human being is infallible. Mistakes will occur in every office, private or public, in the world; but they should be guarded against with zealous care in so important a place as the Sonoma Postoffice.

Of all the persons I know in this place, the present incumbent is my choice to run the office, provided she will carry on the same on business principles.

We want lock-boxes and proper facilities to get to them, thus doing away with the forcing of people into that obnoxious line. If there is not room enough in the present location, a new one should be obtained where there is room. A little more care should be taken in the delivery, and, in short, the office should be made popular with the public and all this fault-finding stopped. If the present incumbent of the office will at once make the desired change, she is the very best person for the position; for she is a lady that every man, woman and child in this community respects in her individual capacity. Is universally popular, genial and constant in her attendance to her business, and if she will look at the present condition of things in their true light and make the needed improvements, there will be a unanimous will in the community for her retention as long as she wishes the position. But if she is determined to turn the cold shoulder to our appeals then we shall go to headquarters with our complaints and demand a new deal. Favoritism or politics has nothing to do with it, it is purely a matter of business.

The weather the past week has been the hottest experienced for years in Sonoma.

The Union Hotel is doing a rushing business. Don't forget that this hotel is becoming more popular every day.

The atmosphere throughout the valley has been very smoky the past week, indicating heavy forest fires to the northward.

The Fair at Santa Rosa is in full blast. We notice among the names of the exhibitors a number of Sonoma Valley people.

The Supervisors have ordered the District Attorney to commence suit at once to collect all liquor licenses due up to January 1st, 1885.

Any one wishing a brand new double-barreled, breech-loading \$75 shot-gun for \$60, would do well to call at this office and examine the same.

Over 1,000,000 paving blocks, weighing twenty-six pounds each, have been shipped from Sonoma to San Francisco, via Embarcadero, this season.

The Union Hotel is becoming quite a resort for city visitors to Sonoma. The fame of this hotel is becoming well known to travelers and pleasure seekers.

Carl Brown will please accept our thanks for a complimentary family ticket to his panorama of the Battle of Waterloo which exhibits in Santa Rosa during Fair week.

The new building adjoining Jones' Hotel, being built by Jas. Mackin, is nearly ready for occupancy. When finished it will be occupied as a dry goods house by Mr. Smith of Napa.

Be sure and send your children to the dancing school at Union Hall, next Thursday, at 4 o'clock. Give them a chance for an education in grace and deportment under Prof. Mrs. G. H. Gaffney.

Many bodily ills result from habitual constipation, and a fine constitution may be broken and ruined by neglect. There is no medicine equal to Ayer's Pills to correct the evil, and restore the organs to natural, healthy and regular action.

The sidewalk laid in front of the Union Hotel this week is a great improvement to that part of the town. It is twenty feet in width and is of dressed Oregon pine. The Union is now one of the most attractive buildings in town.

Mr. J. Engler has recently opened a boot and shoe shop on Napa street, adjoining the new drug store. He makes a specialty of making and repairing boots and shoes, is a good workman and deserves success. See his advertisement under head of "New To-Day."

Last Tuesday was the first day of the races at Santa Rosa. The first race was a half-mile and repeat running race, free for all, for a purse of \$250; with \$50 to the second horse. There were four starters, among them James Biggins' "Fanny Parnell." The race was won by "Atchison," while "Fanny" came in for second money.

The attention of our readers is called to the advertisement, in these columns, of Fred. Franck. This gentleman has just opened a cooper shop in Glen Ellen and is prepared to turn out in a workman-like manner barrels, pipes and tanks. He warrants his work and invites those wishing anything in his line to give him a call.

Mrs. George Golden begs leave to inform the ladies of Sonoma and vicinity that she is now prepared to make dresses in the very latest styles at reasonable rates. Also, plain and fancy sewing done with neatness and dispatch. Ladies wishing work done in Mrs. Golden's line are invited to give her a call.

An effort is being made to establish a Parlor of the Native Sons of the Golden West in Sonoma. Emile Pauli, who has the matter in hand, reports that he is making good progress and that his chances of success are excellent. Any young gentlemen in the valley desiring to join will be given all the information desired by calling on Mr. Pauli.

A dramatic club was organized in Sonoma, last Wednesday evening, by a number of our young people. The club has twelve members being equally divided between young ladies and gentlemen. Their first entertainment will be given for the benefit of the Methodist church, in a short time, when the play of "Better than Gold" will be produced.

Messrs. G. P. Day and J. B. Robinson of this place have established themselves in the wine and fruit business in San Francisco. They are engaged in wholesaling, and are building up quite a business. Mr. R. has charge of the business in San Francisco while Mr. D. looks out for things up this way. It is the chief aim of these gentlemen to put on the market the products of the orchards and vineyards of the Sonoma Valley. We wish them success in their undertaking.

SONOMA PUBLIC SCHOOL.

Interesting Exercises Held by the Scholars on Friday of Last Week.

One of the pleasing features of the Sonoma Public School are the exercises by the pupils, consisting of readings, recitations, vocal music, etc., which take place monthly in the school house. These exercises have a healthy influence on the minds of the scholars and are very entertaining to visitors as well.

Mrs. Martin, our lady principal, and her assistants, Miss S. Morton and Miss V. Hope are very earnest in their work, as is evidenced by the marked improvement their pupils are making in their studies. Following is the programme as rendered on Friday of last week: Song, "Then Row," by the school; recitation, "The Two Little Kittens," Watson DeMerritt; recitation, "The Violet," Matilda Bulotti; reading, "The Roman Sentinel," Lillie Dunn; recitation, "The Queen Little School-marm," Bertha Campbell; recitation, "The Old Front Door," Eddie Burnham; recitation, "For Friendship's Sake," Ella McIntyre; recitation, "Shepherd Boy," Hulbert Mumfry; recitation, "Battle of Blenheim," Howard Mumfry; reading, "Common People," Grace Shaw; recitation, "If Ever I See," Harry Orr; recitation, "Woodman, Spare that Tree," Henry Carriger; recitation, "Why the Mule Escaped," Charlie DeMerritt; recitation, "Little Things," Harry Shaw; recitation, "Silence," Robert Bain; recitation, "O'Reilly's Goat," Lillie Dunn; reading, "Boothblack's Soliloquy," George Waters; recitation, "Co. A Fine Property for Sale.

In another column will be found an advertisement of real estate for sale. The property consists of 752 acres of fine fruit and farming land as can be found anywhere. It is situated on Mark West Creek, 8 miles north-west of Santa Rosa and is known as "Carriger's Mark West Ranch." On the place is to be found wood and water in abundance, everlasting springs and a beautiful lake. The San Francisco and North Pacific Railroad runs through the place, where is located a station. On the ranch is a dwelling house of six rooms, barn and out-houses, and also eighty head of young cattle. This place is offered for sale to settle up an estate, and if applied for at an early day can be had at a decided bargain. To those wishing to engage in farming this is the best chance ever offered for getting one of the most desirable places in the State for the money.

The Erie in Oregon.

Mark A. Miller, traveling agent for the Erie Railroad, writes from Portland, Oregon, that an attack of pleuro-pneumonia left behind it a severe and painful cough. After trying several remedies without success, he began using Red Star Cough Cure, and upon taking one bottle found himself on the road to rapid recovery.

PETALUMA NOTES.

[Courier.]

T. C. Putnam recently bored a well on his farm in Vallejo township and had the good fortune to strike a flowing stream that rises two feet above the ground. The water is soft, cool and is good for drinking and all other purposes.

Wing H. Taber of this city, father of Jacob S. and James W. Taber of San Francisco, and John S. Taber of this county, died at his residence on Washington street, last Monday, the 10th inst. The deceased gentleman was born in Fair Haven, Mass., and was on the day of his death 76 years and three days of age.

The Petaluma Fruit Cannery is doing splendid work. Up to this date they have turned out 21,000 cases, containing two dozen cans each, or a little over 500,000 cans. The company expect to put up this season 600,000 cans. They have about 200 hands, big and little, old and young, employed, and the payroll amounts to \$1,500 a week. They are now at work principally canning pears. John Fritsch, President of the company, from whom we get the above information, says they will pay out this season for fruit cans, labor, etc., from \$80,000 to \$100,000.

Not long since a family arrived in this city in search of work. They were without funds, in fact the necessities of life, having not even a tent to cover them; they slept in an open field and had little to eat. Near by was a small vacant house owned by a man who never has to think of the morrow or count his dollars and cents. The head of this destitute family applied to this man for means for the house. Instead of placing the rent at a figure within the reach of this man's pocket-book, or better still, rent free until he could find employment, he refuses to allow them to enter the shanty until they have paid the modest sum of ten dollars. Verily that man shall reap his reward.

[Imprint.]

Wm Dolan, a laborer who works in the neighborhood of Novato, while slightly under the influence of "blue vitrol," and the Big Circus, attempted to capture Petaluma yesterday. He chased and insulted several ladies, but was finally colored by officer Nagworth. He broke and ran, and had to be shot at several times and chased fourteen blocks by the officer before he came to a halt. He was finally locked up in the cooler. He will have his hearing before Justice Baldwin at 9 A. M. to-day.

HEALDSBURG HAPPENINGS.

[Enterprise.]

Reports from the mountains indicate a growing scarcity of feed. Stock is suffering and many sheep are dying.

An eagle was killed on the Hassett ranch that measured six and one half feet. It is said that these birds carry off lambs weighing from twenty-five to thirty pounds.

Col. Cochran handed us two peaches of the Orange Cling variety last Thursday, of his raising, that measured 10 1/2 inches in circumference; and one of the Salway, a freestone, that measured 9 1/2 inches.

The shop of George Schuler, at Windsor, was burglarized, recently, and articles taken to the value of \$20. Among them was a Colt's 36-caliber revolver, old style; two gold Masonic pins, some rare coins, a kit of shoeing tools containing two steel nippers, a hammer and hoof knife, and a heavy cloth Scotch cap.

Last Saturday evening an Indian drew a pistol on Marshal Clark and afterward started off on a run, followed closely by officer Stewart. The Indian carried the weapon in his hand, frequently pointing it at those who were in front. When about half way to the depot, J. H. Shearer, who was in front, suddenly turned and pulling a six-shooter from his pocket, soon brought the culprit to a stand-still, when he was overtaken by the officer and thrust into the calaboose.

Last Friday night, as H. K. Brown was going home he was accosted by three ruffians, one of whom talked incoherently, and pulling off his coat, approached Mr. Brown threateningly. The latter struck out from the shoulder and brought his would-be assailant to the earth. A comrade then advanced and was received in a similar manner, when they all concluded it was best to skip out. Next morning they were arrested and placed in the calaboose.

While driving with his family between Geyersville and Cloverdale, Wednesday, Dr. Wilcox met with an accident that fortunately was not serious. In going down a hill the breaching gave way, and the horse not being able to manage the buggy it was overturned and the Doctor, his wife and three little Wilcox's were piled up in a heap. Beyond some bruises and the loss of a little cuticle no damage was done.

THE GRAND JURY REPORT.

Two Indictments Found Against a Supervisor—Other Matters.

The Grand Jury for Sonoma county were in session the greater part of last week in Santa Rosa. On Friday they finished their labors and presented the following report to Judge Presley:

To the Hon. Superior Court of the County of Sonoma, State of California: We, the Grand Jury of the County of Sonoma make to your Honor the Court the following report of the condition of such of the affairs of said county as are properly cognizable by our body, and have come under our examination, to wit:

Our examination of the office of the Superintendent of Public Schools showed the furniture to be ample for the requirements of his office, and the books well and neatly kept, and everything in connection with his office in a satisfactory condition.

Our visit to the office of Assessor fully convinced us that it is in a good condition, and its duties well and faithfully performed. The office room is ample, the furniture suitable and in good condition. We found the assessment roll of the present year had been turned over to the Auditor.

We made a careful examination of the County Clerk's office and found that the arrangement of all books and papers a most perfect system has been inaugurated, and carried out in detail. The condition of the work in every department of the office is a matter worthy of special commendation. The services of the clerks who have been paid, the services on which the charge is based, and the department of the county clerk's office, everything kept strictly in accordance with law. We feel it a duty to say that the present Clerk is a thoroughly competent, industrious and accurate officer, and the affairs of his office conducted in a business-like manner.

In the Recorder and Auditor's office the books of record were in their proper places. This office is in a good condition in every respect, and well and fully kept. We find, however, that there is not room enough to accommodate the business at present, and we would recommend for the convenience of the public, that the office of Recorder and Auditor be removed to the county Court House, and that the present office of Recorder and Auditor be sold. But if this cannot be done, we would recommend that an addition be built on the present Hall of Records, extending it to the property of Mrs. Spencer.

We found the office of Sheriff well kept. The prisoners had no complaints to make against the officers. But we would recommend that strong riveted iron bedsteads be placed in each cell, in place of compelling the prisoners to sleep on cots spread on the floor of the jail, a practice dangerous to their health. We also advise the putting in of additional bars to the windows of the jail.

We found the Treasurer's office in a perfect condition. We examined the safe and the books, and saw everything connected with the office gave us satisfaction.

We visited the County Farm in a body, and found it in a condition at once so pleasant and comfortable and well kept that it affords the aged and helpless of the county several ladies, but was finally colored by officer Nagworth. He broke and ran, and had to be shot at several times and chased fourteen blocks by the officer before he came to a halt. He was finally locked up in the cooler. He will have his hearing before Justice Baldwin at 9 A. M. to-day.

We unqualifiedly recommend the removal of the Hospital to the County Farm, where better accommodations can be had, and the premises and improvements in Santa Rosa be sold. The present building is hardly adequate to the present wants of the county, and the removal of patients may largely exceed its capacity.

In justice also to the people of Santa Rosa, we recommend that the estate of James Martin, deceased, be sold, and the proceeds be used to build a new and comfortable home for the poor of the county, and everything thereabout in a satisfactory condition.

We recommend that the rule which requires the inmates to obtain the consent of the Superintendent of the Farm when desiring to temporarily leave the place, should be enforced by means provided by the Board of Supervisors; as at present the Superintendent is without any means to enforce its observance.

The County Physician was found at the Hospital attending to his duty. The condition of the patients is excellent, and great care has been exercised in the matter of food and special attention according to particular ailments. The house is in good condition, and well kept, and the wardens are entitled to credit for faithfully carrying out the valuable suggestions of the physician.

We unqualifiedly recommend the removal of the Hospital to the County Farm, where better accommodations can be had, and the premises and improvements in Santa Rosa be sold. The present building is hardly adequate to the present wants of the county, and the removal of patients may largely exceed its capacity.

We have examined the office of the District Attorney and found it in a good condition and the business well and properly attended to. The District Attorney has been charged with the duty of explaining the law, and to render us every assistance to facilitate the business before us. We recommend in regard to the office room of the District Attorney that it be divided into two rooms. This is a public necessity arising from the fact that the office of the District Attorney should be provided with facilities at all times for meeting the District Attorney privately if any one so desires and although his room is everything that a single room could be desired, yet it does not meet this particular want.

We find that there are many delinquent licenses, the aggregate amount of which (and due the county) is the sum of \$4,500 on liquor dealers alone, and we have had no means of ascertaining the further amount due on peddlers' and billiard table licenses. We find that these licenses all became delinquent on or before October 24th 1884, many of them running as far back as the year 1880. It is the opinion of the Grand Jury that there has been neglect of duty in the above matter by the proper officers. We cannot excuse on the part of any officer of the county, the neglect or omission which endangers the revenue of the county.

During our session it has appeared by evidence satisfactory to us that the Board of Supervisors pursue a custom in passing upon claims that experience has demonstrated is entitled to condemnation. The custom to which we refer is that of paying claims as a matter of course on the recommendation of the supervisor of that locality where the claim has arisen. We believe that no disbursement of public money should be left exclusively to the will of a single Supervisor. Under this custom we find that in the January meeting of that body, a claim of \$241.50, which had been allowed, and for which the Auditor had issued his warrant in October, 1884, was again allowed and paid. We further find that S. R. Houser, the present Supervisor of Sonoma District No. 5, willfully and in full knowledge of all the facts is guilty of recommending the allowance and payment of the claim a second time, and we feel it our duty to recommend that an action be brought to remove the said S. R. Houser from the said office.

CLOVERDALE ITEMS.

[Reveille.]

Chas. Edwards lost over 7,000 new pickets by the recent fire on Redwood mountain.

Deer are reported as being more plentiful now than they were at the commencement of the season.

Mr. Mechi, of the Italian-Swiss Colony, informs us that he shipped 500 gallons of wine last week, realizing 50 cts. a gallon for his Grenache, and 40 cts. a gallon for his Zinfandel.

Some vineyardists are beginning to ask themselves which is most to be feared, frost or sun, for the extreme heat towards the latter end of last month did much harm to many varieties of vines by sun burn. Indeed, we have never before seen so many varieties injured, or so much damage result from this cause.

Bad Outlook For Grapes.

The grape crop of the valley has been badly burned the past month by the intense heat of the sun. The loss to the owner of one vineyard alone from this and other causes will amount to \$4,000.

THE WARNER.

FOUR MACHINES IN ONE.

A Broad Seeder; A Field Cultivator and Harrow; A Two-Horse Corn Cultivator, and a One-Horse Corn Cultivator.

Each one of these above named implements, considered in the one represented in the illustration, is an admirable implement for the purposes intended, containing more valuable features than any other Sully Harrow and worth twice as much. Its superiority over any of the so-called "Floating Spring Tooth Harrows" so great, that we cannot on almost to better the latter to save a few dollars difference in cost. The WARNER is far more economical than most. Farmers are respectfully urged to examine the Sully Harrow before being induced to purchase any other and inferior substitute for it. \$250 and for illustration of Descriptive Circulars and Price List.

THIS WEATHER.

Inform you "it is warm."

A WESTERN DROVER'S STORY.

My name is Anthony Hunt. I am a drover, and live miles and miles away upon the Western prairie. There was not a house in sight when I first moved there, my wife and I, and now we have not got many neighbors, though those we have are good ones.

One day, about ten years ago, I went away from home to sell some fifty head of cattle—fine creatures as I ever saw. I was to buy some groceries and dry goods before I came back, and above all, a doll for my youngest, Dolly. She had never had a store doll of her own—only rag babies her mother had made her.

Dolly could talk nothing else, and went down to the gate to call after me to get a big one. Nobody but a parent can understand how full my mind was of that toy, and how, when the cattle were sold, the first thing I hurried off to buy was Dolly's doll. I found a large one with eyes that would open and shut when you pulled a wire, and had it wrapped up in paper, and tucked it under my arm, while I had the parcels of calico and delaine and tea and sugar put up. Then late as it was, I started for home. It might have been more prudent to stay until morning, but I felt anxious to get back, and eager to hear Dolly's praises about her doll.

I was mounted on a steady-going old horse and pretty well loaded. Night set in before I was a mile from town, and settled down as dark as pitch while I was in the middle of the darkest bit of road I know of. I could have felt my way, though, I remembered it so well, and when the storm that had been brewing broke and pelted the rain in torrents, I was five miles or may be six from home.

I rode as fast as I could, but all of a sudden I heard a little cry like a child's voice! I stopped short and listened—heard it again. I called and it answered me. I couldn't see a thing, all was dark as pitch. I got down and felt around in the grass—called again, and was again answered. Then I began to wonder. I'm not timid, but I was known to be a drover and to have money about me. It might be a trap to catch me unawares and rob and murder me. I am not superstitious—not very; but how could a real child be out on the prairie on such a night, at such an hour? It might be more than human. The bit of a coward that hides itself in most men showed itself to me then; but once more I heard the cry, and said I:—

"If any man's child is hereabouts, Anthony Hunt is not the man to let it die."

I searched again. At last I beheld a light of a hollow under the hill, and groped that way. Sure enough, I found a little dripping thing that moaned and sobbed as I took it in my arms. I called my horse and the beast came to me, and I mounted and tucked the little soaked thing under my coat as well as I could, promising to take it home to mamma.

It seemed so tired, and pretty soon cried itself to sleep on my bosom. It had slept there over an hour when I saw my own windows. There were lights in them, and I supposed my wife had lit them for my sake; but when I got into the doorway I saw something was the matter, and stood still with a dread fear of heart five minutes before I could lift the latch.

At last I did it and saw the room full of neighbors, and my wife amid them weeping.

When she saw me she hid her face.

"Oh, don't tell him," she said, "it will kill him."

"What is it, neighbors?" I cried, "Nothing now, I hope—what's that you have in your arms?"

"A poor lost child," said I, "I found it on the road. Take it, will you? I've turned faint." And I lifted the sleeping thing and saw the face of my own child, my Dolly.

It was my own Dolly and none other that I had picked up on the drenched road. My little child had wandered out to meet papa and the doll, while the mother was at work, and they were lamenting her as one dead. I thanked heaven on my knees before them.

It is not much of a story, neighbors, but I think of it often in the night, and wonder how I could bear to live now, if I had not dropped when I heard the cry for help upon the road, hardly louder than a squirrel's chirp.

That's Dolly, wonder with her mother in the meadow, a girl worth loving, I think, (but then I'm her mother, and what may be) the mother and sweetest thing this side of the Mississippi.

OF INTEREST TO FRUIT-GROWERS.

Judge Belden, of Santa Clara county, has rendered a decision in a case which is of great interest to fruit-growers in this State, where the practice of contracting for a crop of fruit a year or two in advance is common. A party who owned a young prune orchard of fifty acres sold the crop for two years, the sum to be paid the second year being \$2,866.66 and the first year \$5,833.33. But the yielding a fair crop for young trees, yielded almost nothing, and the contractor gave notice that he rescinded the contract, claiming that the reason the orchard did not bear was because it had been improperly pruned. When the orchardist sued to recover, expert witnesses were brought forward to show that the pruning was bad, but on the other hand, another set of witnesses testified that the pruning was all right. Judge Belden remarked that there were two systems of pruning, each claimed to be the best by its friends, and each denounced by its enemies. As practical fruit-growers could not agree between the systems, the Judge said that it would be absurd for him to attempt to do so, and that he was bound to assume the work was reasonably well done. Therefore he gave judgment for the plaintiff, the owner of the orchard, against the contractor.

HOW NOT TO POP THE QUESTION.

"And so she wouldn't have you?"
"Indeed she wouldn't."
"How'd that come?"
"Well, I sat down alongside of her and took her by the hand, as I heaved a sigh too deep to sound."
"How was that?"
"It didn't make noise enough. You see, I alwa's do my sighing in 'ardly an' breathe through my nose to hide my breath."
"Well, what then?"
"I felt her hand flutter in mine, and I could hear her heart thumpin' like a Waterbury watch. I thought that meant 'say the word an' I'm yours,' an' so I said it, but I got left."
"You don't tell me. How'd it happen?"
"Well, she fired up like a hornet and said she would never marry no man what popped the question as though he was referin' to spilt fish."
"Well, that beats all. How in the world did you do it?"
"Well, I sorter give her hand a little squeeze to show her I was cheerful, and then I says, quite glib like, says I: 'Mirandy, can you stomach me?'"

WORK TOO HARD.

"I see you have become quite a hero, pard," remarked tramp No. 1.
"Saved a train, given a ride to the end of the road and a big purse by the passengers."
"You're right there," answered tramp No. 2, complacently.
"What was the particulars?"
"Well, you see, the express was nearly due and I had no flag, so I tore the sleeve of my red shirt and tied it on a pole and waved it like mad just as the train rounded the curve, and the engineer he seed me and downed the brakes and got her stopped just ten feet from the broken rail."
"First class."
"Then they took me aboard, fixed up the track and gave me a free ride to where I wanted to go, and a lot o' money besides."
"Bully!"
"Good enough; but I wouldn't do it again."
"Why not?"
"It's such awful hard work to break a rail."

"With a thankful heart I acknowledge the great merit of Dr. Smith's Caloric Vita Oil. I had suffered over 30 years with rheumatism and was seriously threatened with lung disease. I had tried all remedies and all climates with occasional temporary relief, but no cure. The use of two small bottles made me a sound man."

"It will do the heaviest work of any medicine I ever handled, and quick, too."

"I am 72. Had suffered over 40 years with rheumatism, but Dr. Smith's Caloric Vita Oil cured me after every known remedy failed."
—"AN OLD VETERAN."
All that is asked for Vita Oil is a single trial. Its great merit for the relief of pain can never be known except by the sufferer who has tried it.
PHYSICAL SPORTS.—If pedestrians, gymnasts, ball-players, carmen and those engaged in the rougher pastimes (sports) would prevent serious lameness, contraction of the muscles, or other injuries received from the nature of their calling, they should rub freely with Caloric Vita Oil. No athlete ever used it but was ready and willing to send its praise.

Full directions for using Vita Oil in a variety of diseases accompany each bottle.
Vita Oil is to be had of all leading druggists in San Francisco and generally throughout the Pacific Coast, and by many retail dealers where there is no druggist. It will soon be found indispensable in every family. Price 30 cents and \$1 per bottle.
